

CS 301 - Algorithms

Fall 2026 | Computer Science

Professor: Dr. Chen (chen@university.edu)

Office hours: Tuesday 4:30-5:30 PM, Gates 214

Late policy: 10% per day up to 3 days; exams cannot be late.

This course covers algorithm design and analysis: divide and conquer, graphs, dynamic programming, and NP-completeness. Readings are from CLRS. Weights below are taken from the published schedule.

Graded schedule

Sep 10, 2026 - Problem Set 1 due 11:59 PM (8%)

Sep 24, 2026 - Problem Set 2 due 11:59 PM (8%)

Oct 8, 2026 - Problem Set 3 due 11:59 PM (8%)

Oct 12, 2026 - Midterm exam 9:00 AM, Gates 214 (25%)

Nov 5, 2026 - Problem Set 4 due 11:59 PM (8%)

Dec 10, 2026 - Final exam 9:00 AM, Gates 214 (35%)

Weekly readings

Sep 8, 2026 - Read CLRS Chapter 2

Sep 15, 2026 - Read CLRS Chapter 4

Participation and remaining percent are not listed as dated items.

Do not invent extra due dates. Contact Dr. Chen before an exam conflict.
